

# Omnichannel Routing

Improve your CX and modernize your legacy systems with omnichannel.

8x8 Omnichannel Routing allows contact centers to meet customers' escalating expectations for effective service across an ever-increasing array of communications channels. Because both voice and digital channels are provided natively through a single routing engine, you're able to deliver consistent and personalized experiences, regardless of how customers choose to contact you.

Retain your competitive advantage.

Meeting your customers' shifting channel preferences is no longer optional, but a critical business priority. At the same time, the need for personalized service is not disappearing, and is especially valued for complex issues. The answer to meeting this challenge is to add digital channels while preserving the option of escalating to voice, and even video. That's where the power of the 8x8 Omnichannel Routing comes in.

8x8 Omnichannel Routing leverages the holistic reporting capabilities of the 8x8 Contact Center solution to capture customer insights and deliver a powerful single source of truth. By providing agents with access to customer data via 8x8 Agent Workspace, you're able to personalize the customer journey across all channels.

## Key benefits

- Match customers with the right agent using a routing engine that natively supports voice and digital.
- Connect on customers' preferred digital channels for fast, personalized service.
- Quickly launch new channels to meet rising customer expectations.
- Reduce sales friction with web chat, co-browsing, and video for visual engagement.
- Boost productivity with blended agents handling voice, email, chat, and SMS—up to 13 interactions at once.
- Serve diverse audiences with multilingual messaging and web chat support.
- Equip agents with a unified, intuitive interface across all channels.
- Gain insights and enhance cross-channel experiences with advanced analytics.
