8x8 International Achieves CSA Cyber Trust Mark Certification In Singapore

The certification demonstrates 8x8's robust cybersecurity practices.

CSA Cyber Trust Mark Certification

Awarded by Singapore's Cyber Security Agency (CSA), this cybersecurity certification is for enterprises with more extensive digitalised business operations, serving as a mark of distinction for organisations that have put in place good cybersecurity practices and measures that are commensurate with their cybersecurity risk profile.

8x8 International is proud to be recognized with the highest tier of the Cyber Trust mark certification for its robust cybersecurity practices and measures.

Cyber Trust Early Adopter Award

As one of the first companies to obtain the certification, 8x8 International also received the Cyber Trust Early Adopter Award, demonstrating its cybersecurity preparedness.
